

Q3 Product Roadmap — Confidential Draft

This document outlines the product priorities for the third quarter. It is a working draft and will change as we learn.

Three themes: retention, performance, and craft.

Theme One — Retention

Our month-over-month retention sits at 34%. The goal for Q3 is 45%.

Key initiative: the resume-reading experience. Users who return to a document within 24 hours are three times more likely to still be active after a month.

Owner: Maya. Milestone: end of week 4.

Theme Two — Performance

Cold start must be under 800ms on mid-range devices. We are currently at 1.4 seconds.

Rendering large PDFs above 200 pages causes dropped frames. We will move page rendering to a background thread.

Owner: Dmitri. Milestone: end of week 7.

Theme Three — Craft

Craft is the difference between a tool people use and a tool people love. We will spend 20% of the quarter on polish alone.

Focus areas: typography, transitions, empty states, and haptics.

Owner: the entire team. Milestone: continuous.

Risks and Open Questions

Hiring is behind plan by two engineers. If this does not change, we will cut the annotation feature from Q3.

Open question: do we ship the tabbed reading experience in Q3 or Q4?

Decision needed by Friday.
